

# Fantech

## CG VENTILATION GRILLES

### EXHAUST OR SUPPLY

- Designed for Quiet Control of Airflow
- Use for Supply or Exhaust
- Fast, Precise Adjustment
- Attractive Low-Profile Design
- Models for 4"-6" Duct
- Paintable Matte Finish

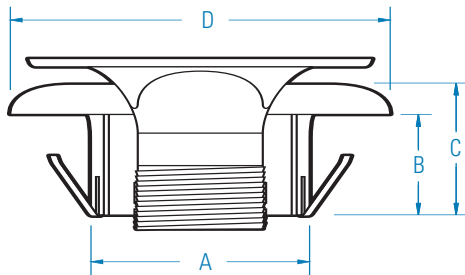

Fantech's new Contour Grilles have been scientifically designed to work as either Supply or Exhaust Grilles. Well developed Coanda effect disperses air along the ceiling thus eliminating cold drafts. These grilles also work well in heated applications.

Grilles are manufactured of flame retardant, polypropylene that resists yellowing. White matte finish can be painted to match walls or ceiling.

Models available to fit 4", 5" or 6" duct diameters. Choose individually packaged grilles with galvanized metal collars, master packs of 6 grilles/collars or bulk packs of 50 grilles.
